

Job Id: VSAP015

Job Title: Programmer Analyst

Job Type: Full Time

Job Location: CA-Fremont

Posted On: 2017-02-22

Job Description:

Vertisystem, Inc. is seeking a qualified professional to fill the position of Programmer Analyst based in Fremont, California. Responsibilities include: create, design, modify, test, debug, implement and document complex software systems and programs. Gather information from existing systems, analyze program and time requirements. Write, analyze, review, and rewrite programs and applications, and correct errors by making appropriate changes and rechecking the program to ensure that the desired results are produced. Assist and support project personnel in resolving issues and validating programming requirements within areas of responsibility. Identify impacts to the existing systems, map changes, and align them to current requirements. Create and execute user testing plans and scripts. Generate specifications, workflow charts and data flow diagrams to show organizational processes and structure. Develop test plans to verify logic of new or modified programs. Conduct quality assurance activities and create appropriate documentation, such as program code and technical documentation. Utilize experience in PL/SQL, Oracle SQL, Informatica, Cognos BI, UNIX, and Noetix (Jaros) Platform. Position requires 50% national travel.

Job Responsibilities:

--

Required Skills:

Position requires Bachelor's degree or foreign equivalent degree in Computer Science, Computer Applications, Computer Engineering, or a related field plus five (5) years of experience in a related occupation. Position also requires experience in PL/SQL, Oracle SQL, Informatica, Cognos and Noetix (Jaros) Platform.
