

Job Description:

Vertisystem, Inc. is seeking a qualified professional to fill the position of LIMS and GxP Business Analyst and will work in either on the following locations: RTP, NC or Cambridge, MA.

Job Responsibilities:

-) Gather and document requirements for Laboratory Information Management Systems (LIMS) implementations
-) Author SDLC deliverables in a GxP environment
-) Develop business needs into technical requirements
-) Document business processes and use cases

Required Skills:

-) Strong interpersonal and teamwork skills, with the ability to interact with business users, technical IT groups, project managers, senior management, outsourced service providers, and vendors
-) 3 - 5 years' experience as a business analyst, with command of business analysis techniques & tools, as well as SDLC & iterative systems development methodologies
-) Familiarity with LIMS systems, GxP, CFR 21 Part 11 and systems validation

Desired Skills:

-) Life Sciences, Biotech or pharmaceutical industry experience preferred
